

## Scale of charges and fees „Center for Structural Studies (CSS)“

### Charges Protein Crystallization

	for members paying annual subscription [€]	other users [€]
<b>96-well plate</b> (sitting drop)		
incl. screens, tips, sealing per 96-well plate	58,-	77,30
<b>96-well plate</b> (microbatch)		
incl. screens, tips, oil per 96-well plate	42,-	56,-
<b>24-well plate</b> (sitting drop)		
incl. screens, tips, sealing per 24-well plate	21,-	28,-
additional additive- or detergent-screen per 24-well plate	10,-	13,30
additional heavy atoms per 24-well plate	14,-	18,70
<b>24-well plate</b> (hanging drop) incl. cover slides		
incl. screens, tips, sealing per 24-well plate	49,-	65,30
additional additive- or detergent-screen per 24-well plate	10,-	13,30
additional heavy atoms per 24-well plate	14,-	18,70
<b>24-well plate</b> (microbatch)		
incl. screens, tips, oil per 24-well plate	9,-	12,-
<b>Structure determination and -refinement</b> (lump incl. data collection and PDB deposition)	500,-	665,-

### Charges SAXS Measurements

	for members paying annual subscription [€]	other users [€]
<b>per protein measurement</b> (with 3 different concentrations)		
incl. vials, chemicals	0,-	70,-
<b>Data analysis and evaluation</b> per protein/substrate	70,-	70,-

### Memberships

per Working Group: 700,- Euro per year  
 per Junior Scientists: 350,- Euro per year  
 Joint Research Projects: upon request
